

Grape Forecaster Network Installation.

Grape Forecaster can be run on a Local Area Network or a Wide Area Network (Remote Desktop, Citrix) or a combination of both.

To complete installation you should have A CD or Setup file – (downloaded)

YOU WILL NEED TO INSTALL GRAPE FORECASTER FROM ALL WORKSTATIONS and/or ALL TERMINAL SERVER/REMOTE DESKTOP USER LOGINS

If the same user name is used on a LAN as well as a TS/RDP connection Grape Forecaster needs to be installed twice once with the LAN & once with RDP login.

If your Server is not shown on your workstation as a “Mapped Drive” then you must do this first.

Using Windows Explorer, open Network Neighborhood, then open the Server...

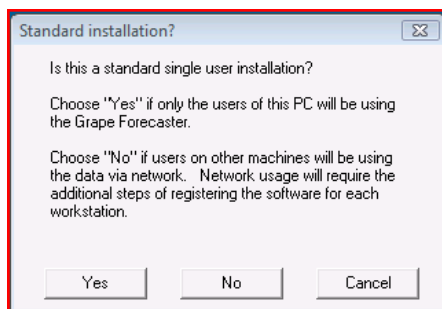

You should see the servers C drive listed (or any other drive that has been set up as a Shared Drive).

Right click on the Server Drive (or Folder) you are to install Grape Forecaster onto and choose “Map Network Drive”... Select a Drive Letter from the list.

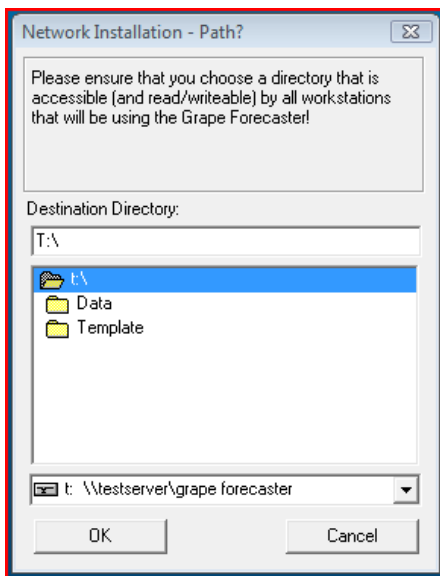

It is a good idea to have a Grape Forecaster folder on the server drive as a shared folder.

We are using - Server C Drive “\Program Files\Fairport\Grape Forecaster\” folder as the Shared Folder and T: as the Mapped Drive connected to that folder in this example.

Using the PAM CD or Setup file, commence installing the Grape Forecaster program on the workstation...

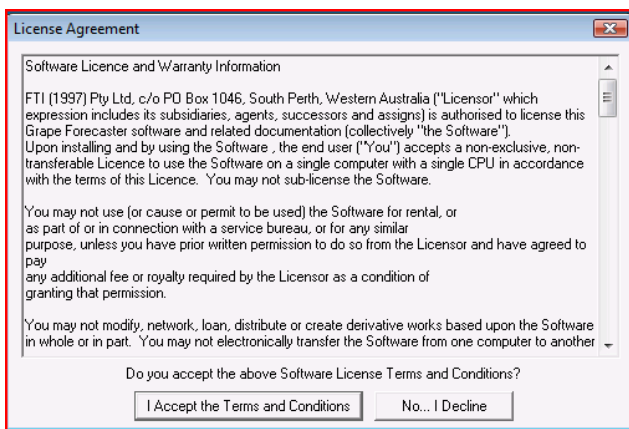

Choose **No** if you want a Network Installation

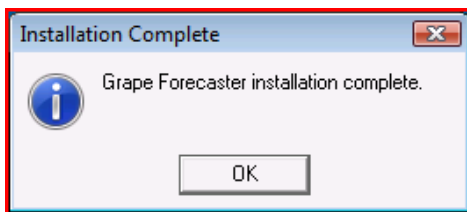

Choose the folder to install to.

NOTE: Make sure you are installing to the same folder as the other users installations.

Accept Terms & Conditions

Repeat for the next User Login if required.

The installation will create individual User work files in Windows XP

C:\Documents and Settings\[User Name]\Local Settings\Application Data\Fairport\Grape Forecaster

Windows Vista

C:\Users\[User Name]\AppData\Local\Fairport\Grape Forecaster

IMPORTANT:

All users need to be either Administrators or have **Read/Write** permission to the Installation Folder & the Windows registry keys on their Local PC -

HKEY_LOCAL_MACHINE\SOFTWARE\Fairport

HKEY_LOCAL_MACHINE\SOFTWARE\Opus

Please contact support@fairport.com.au if you require any further assistance.
